Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was very cooperative but selective in his memory. He owns and operates the Edwards Marina. The WITNESS is very intelligent and obviously knows more about the waste disposal activities of Modern Trash in the 1960s. He was very reluctant to name anyone who may have knowledge of the Sauer Dump.

He did suggest that although he has no first hand knowledge, he believes that Dock Hershman disposed of waste at the Sauer Dump. The WITNESS indicated that Hershman was friendly with Fritz Sauer and that Hershman had told the WITNESS that he was "dumping" on the Sauer Dump.

The WITNESS was advised that I will prepare a summary of this interview and will ask the WITNESS to review this summary for accuracy. The WITNESS was asked if he would sign this summary if the summary accurately reflects the interview. The WITNESS stated that he would sign an accurate summary.

Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was cooperative. However, he refused to acknowledge that he knows at least some of the types of waste that he transported to the 68th Street Dump.

Normally, truck drivers usually inspect the waste at least one time at the time of pickup to identify any possible valuable material such as copper. The WITNESS is intelligent and articulate and I am sure he kept a lookout for any items that were valuable.

The WITNESS was not sure if he would sign a copy of the interview summary.
